   GOME Daily Reports Analysis          05 May         2000
--------------------------------------------------------------------------------
      ******************************************************************
            NARROW SWATH TIMELINE GMNNOT41 executed
            continued from day 125 (2000/05/04)
            Orbit 26350 time: 22:50
            holding on until orbit 26359 time ~12:00
      ******************************************************************

**********************************************************************************
Summary of Anomalies:
 1 - Memory Dump (change to the latest available data, day 02/05/2000):
     reset to default values after GOME switch-off day 04/05/2000
     5 differences found in E2PROMCOPY area (see below for details)
