
Summary of Anomalies:

instrument info

EGOI
 no EGOI data since dump Orb. 35973, 02:14:59 (08/03/2002)
 due to an ERS2 on-board anomaly all payload instruments are unavailable
 (see unavailability fax ER2-UNA-2002/005)

please note that the GOME switch on is planned for today 21/03/2002;
 AMI, ATSR, IDHT, RA are back to operations since 17:50:10 of day 20/03/2002
 (See ER2-UNA-2002/007)

 GOME Daily Reports Analysis 20 Mar 2002

Station ID	no data
MPH Product Confidence	no data
SPH Window Information	no data
Command Word Echo Summary	no data
Instrument Status 1A	no data
Instrument Status 1B	no data
Instrument Status 2	no data
Integration Times Channel 1	no data
Co-Adding and Cluster Mode Flags	no data
Integration Times Band 2A	no data
Integration Times Band 2B	no data
Integration Times Band 3	no data
Integration Times Band 4	no data
Scan Mirror Position	no data
Polarisation Detectors	no data
FPA Temperatures A	no data
FPA Temperatures B	no data
Charge Amp Temperatures	no data
Other Temperatures A	no data
DDHU Temperatures	no data
Optical Bench Temperatures	no data
Other Temperatures B	no data
Calibr. Lamp and Instr. Status 3	no data
Scan Mirror Motor Current	no data
Selected Temperature A	no data
Selected Temperature B	no data
Selected Temperature C	no data
Channel 1 Summation	no data
Channel 2 Summation	no data
Channel 4 Summation	no data
Log pages	no data
331/318 nm Uncal. Line Ratio	no data
Uncal. PMDs as RGB signal	no data
780 nm Uncal. Intensity	no data

 GOME Memory Dump Check 20 Mar 2002

no data due to instrument switch-off
